

To City Council

This Letter is to ASK FOR the chance to be Recognized And to be heard. In regards to the ~~state~~ conditions between the City Residents and the Lynchburg College Students, and the City and College.

For the last 4 years, I've ~~been~~ been in the Basement Apt. of 201 Langhorne Ln. I have been Painting & Repairing damages in ~~10~~ different Houses that the Students live in. (my landlord owns 7 of them). ~~I~~ I have vacated the Students to the ~~Residents~~ Residents and the Residents to the Students.

There ARE A small group of Students that have made this difficult. They harass the Residents to uproot where the people who own their home either live with it or sell and move.

I would like to share with City Council some of my experiences with these Students. I only hope that this will help to resolve the problem. Lynchburg is a old City ~~with~~ with much tradition, why let a small group of out of state Students ruin what took so long to build.

Thank You For your time with this very important issue.

Thanks
Scott Denson
